## MAJOR GENERAL C. A. WILLOUGHBY

21 May 1951

Lt. General Walter B. Smith
Director, Central Intelligence Agency
Mashington, D. C.

ear Browll

Dono

25X1

The enclosed is self explanatory. However, it was a direct note by Donovan, who attached some value to it. My own impression is that this is self-important and operates in an air of fictitious secrecy. He could have told us everything he knew on his way through Japan.

Anyhow, I am supposed to look him up. I have a notion however, that if he has anything, I should throw it your way. I understand you have a mild interest in China?

I suggest therefore that I would consider it a favor if your organization were to take over. This is the pitch.

1) Leave Tokyo via SS "Breckenridge" May 22d at 1500.

2) I selected a transport to recover a bit and do some reading preparatory to the Congressional wrangle.

3) Al Wedemeyer asked me to stop over with him.

4) Letterman Genoral for routino check-up prior to retirement, or words to that effect.

5) Duration probably five days or less. I shall visit some friends in Sta Barbara.

6) Depart by air or train on or about June 15th.

7) To 46 Durham Road, Bronxville, New York with relatives.

8) This will be my firm address and base of operations.

9) Confer with General MacArthur and Republicanos.

10) Leisurely contact with Counsels of Committee. Questionnaires, etc.

11) I have a message from Vaughan via Tom Reed to "see him earliest".

Reading between the lines, I will state to you secretly that I believe that I can handle the Committees along the lines of international Communism, the IIId Comintern and its Chinese ramifications, the Imerican links (Browder and Dennis etc) i.e. on a plane that both Republicans and Democrats can pleasantly join? On the Korean issue, I have prepared a study "Aid and Comfort to the Enemy", attacking the sloppy reporting of the Press (some of the Press, I don't want all of them on my nock); this is an interesting thesis: the bastards have been dishing it out for so long, it will amuse mo to see if they can take it; I am completely documented; this is my racket.

## Approved For Recase 2003/11/06 : CIA-RDP80B01676R5-2600080060-2

It is more than possible that both Truman and MacArthur have an out and a basis for rapprochment, since my thesis suggests that the gloom and disaster school of journalism in November, is probably responsible for uncasiness between Tokyo and Jashington; at any rate, it could be played that way.

Thile I stand squarely with MacArthur, I always had a liking for Truman for one important reason: he refused further Yaltas and Potsdam; he refused to meet the Kremlin unless in 'Jashington. That has made a profound impression on me. Enough with these Canossa's for the Red Pope. This stand was admirable and one can forgive this man much for this.

In the meantime, I am in a nervous slump. Perhaps, it was just as well to taper off now. I have aged in the last two years.

With kind personal regards,

Fraternally,

C.A. WILLDUMBY
Hajor General, G.S.C.
Ass't Chief of Staff, G-2

Encls:

As stated above.
